Experience

Machine Learning Intern, TechnoHacks   May 2024-Jun 2024

- During my internship, I had the privilege of working on various Machine Learning projects.
- Built and Evaluated ML models for real-world prediction tasks, including wine quality, house prices, and diabetes risk using Python and Scikit-learn.
- Applied data preprocessing techniques such as handling missing values, feature scaling, and encoding to improve model performance.

Projects

Portofolio Website
- Designed and developed a personal portfolio website to showcase skills, projects, in a visually appealing and user –friendly layout.
- Utilized HTML,CSS, and JavaScript to create a responsive, mobile- friendly website.
- Included social media integration, allowing visitors to easily connect on platforms like LinkedIn, GitHub, and Twitter.

Easy2Search
- Developed a centralized web Platform to provide official links to various government services, enhancing accessibility and user convenience.
- Streamlined the Search Process or government application forms by categorizing services and integrating a user-friendly interface.
